

MARY KAY CLINICAL SOLUTIONS™ BOOSTERS OFFER DERMOCOSMETIC SOLUTIONS USING WELL-KNOWN AND SCIENTIFICALLY ACCLAIMED INGREDIENTS. THESE PRODUCTS CAN BE INCORPORATED INTO ANY SKIN CARE REGIMEN BY MEN AND WOMEN OF ANY AGE WHO ARE LOOKING TO ADDRESS SPECIFIC SKIN CARE CONCERNS: LINES AND WRINKLES OR DRYNESS.

HOW TO USE

After cleansing and toning, squeeze 6 to 8 drops (individual usage may vary depending on personal preference) into hands. You may find you need fewer drops, so you can adjust the usage amount to your individual needs. Evenly apply to your face and neck, avoiding the eye area. Once absorbed, follow up with your favorite *Mary Kay*® serum or moisturizer.

1. Cleanser
2. Toner
3. **Booster**
4. *Mary Kay Clinical Solutions™* Calm + Restore Facial Milk (if using)
5. Serum
6. Moisturizer

1. Cleanser
2. Toner
3. **Booster**
4. *Mary Kay Clinical Solutions™* Retinol 0.5 (if using)
5. *Mary Kay Clinical Solutions™* Calm + Restore Facial Milk (if using)
6. Serum
7. Moisturizer

YOU DECIDE WHICH BOOSTER IS BEST FOR YOU!

Depending on your skin care concerns, you may choose to incorporate just one or both. However, it's important to remember to apply them one at a time (never mixing) for the best experience. If incorporating both into your routine, begin by applying the *Mary Kay Clinical Solutions™* C + Resveratrol Line-Reducer and then the *Mary Kay Clinical Solutions™* HA + Ceramide Hydrator. And of course, remember that consistency is key to achieving maximum results!

LINES & WRINKLES

HYDRATION

+ MARY KAY CLINICAL SOLUTIONS™ HA + CERAMIDE HYDRATOR

Use this super hydrating booster twice daily.

Can be layered with *Mary Kay Clinical Solutions™* Retinol 0.5 during and after the retinization process.

+ MARY KAY CLINICAL SOLUTIONS™ C + RESVERATROL LINE-REDUCER

Use this potent booster twice daily.

Can be layered with *Mary Kay Clinical Solutions™* Retinol 0.5 but **only after** the retinization process.
